Requesting Access to the Tool

- In the 'Your Organisation' field, pick your organisation's name from the list if it's already registered.
- If your organisation isn't listed, choose 'My organisation isn't listed' and then select your organisation type from the options.

Organisation

My organisation isn't listed. 

Your organisation type

- Central Government Department
- Arms length body
- Local Authority
- NHS organisation
- Police or other emergency service
- Commissioning body
- Other

How to Choose a Parent Organisation and Complete Registration

1. Look for your parent organisation's name in the dropdown. If it's there, select it.
2. If you can't find your parent organisation, choose 'My parent organisation isn't listed' and type its name in the box provided.

Your registration will go to the team in charge. It may take up to two working days to process. For any questions or issues with signing in, email cciafsupport@cabinetoffice.gov.uk.

What Happens After Registration

Once you finish registering, you'll see a confirmation page and get a confirmation email.

GCG0237

Your request to register has been submitted.

What happens next

You will receive an email asking you to verify your email address. Following this, if your organisation already has an assigned lead assessor, they will be able to approve you, otherwise the Government Commercial Function will review your request to register your organisation.

Checking for Verification Emails

Be aware that some department spam filters may direct verification emails to your spam folder. If you don't receive a verification email, email cciafsupport@cabinetoffice.gov.uk for manual email verification.

Managing additional users

Once the lead user is registered they can add new users onto the tool.

To assign users to an assessment your organisation needs to have started an assessment.

Click **'Assessments'**

- If you haven't started your current assessment, you will need to click **'create assessment'**
- If you have already started the assessment then open your **current assessment**

Completing your assessment

When you are ready to start completing the assessment, click into the **Assessment overview page**.

You can complete the assessment in any order.

Depending on how your organisation and the peer reviewing organisation wants to work you can submit individual criteria to peer review or you may want to complete the whole assessment first before submitting for peer review.

You have to complete all 8 themes and they all have to have been peer reviewed before submitting the assessment to the Cabinet Office

The screenshot displays the 'CCIAF Scoring Tool' interface. At the top, there is a header with the Government Commercial Function logo and the text 'OFFICIAL - SENSITIVE'. Below this is a navigation bar with links for Home, Assessments, External peer reviews, CI plans, Sub-organisations, Help, and Sign out. A 'PRIVATE BETA' banner indicates that this is a new service and encourages user feedback. The main content area is titled 'Assessment overview' and includes a 'Save themes' button. A sidebar on the left lists navigation options: Assessment overview, Cover sheet, CI plan, Document library, and Manage users. The main content shows the assessment details: CCIAF reference: A00501, Cohort: N/A, and Your organisation: Alex Test Org. There is a 'Show all sections' link. Below this, five themes are listed, each with a description, a green 'IN PROGRESS' status indicator, and a 'Show' button with a dropdown arrow.

Theme	Description	Status	Action
Theme 1	Commercial Strategy, Planning and Governance	IN PROGRESS	Show
Theme 2	Commercial Capability and Resourcing	IN PROGRESS	Show
Theme 3	Commercial Lifecycle Define: pre-procurement	IN PROGRESS	Show
Theme 4	Commercial Lifecycle Procure: procurement and contracting	IN PROGRESS	Show
Theme 5	Commercial Lifecycle Manage: contract management	IN PROGRESS	Show

Within each theme you can quickly see next to the practice area how many criteria have been sent for peer review

The current rating is the score that you have achieved in your self assessment so far. This will update when you add more attainment levels into the Theme.

You must select a 'desired rating' so that comparisons can be made between the desired and achieved rating.

Criteria status and filtering

You are able to filter the criteria within each practice area:

- Not started = no attainment level has been set or supporting evidence attached
- In progress = attainment level has been set
- Internal checks = The user completing the criteria has marked it ready for internal checks. This is so the Assessment lead can review before it is sent to peer review. This is optional, you do not need to mark a criteria as ready for internal checks for it to be able to be sent to the peer reviewer
- Submitted for peer review = the criteria and any supporting evidence has been submitted to the peer reviewer. Documents will be viewable by the peer reviewer if their status has been set to 'published'
- Peer review complete = the peer reviewer has now finished completing the peer review for a criteria
- Peer review query = the peer reviewer has requested more information / clarification

You can also see the status of each criteria in the criteria status

Conducting a peer review

A peer review can take place when the self assessing organisation has submitted to peer review (either at criteria level or the whole assessment).

The assessment lead will be notified via email which organisation your organisation will be peer reviewing approximately 2 weeks after the self assessment has launched.

When clicking on the 'external peer review' tab you can click on the organisation link. You will be able to view any criteria the organisation has submitted to peer review.

You will not receive email notifications when every criteria is submitted due the amount of emails you would receive. The assessment lead will receive an email once the whole assessment has been completed. However we recommend that the peer reviewer checks the assessment at least once a week to review any criteria that has been sent to peer review.

9 / 9 SENT FOR PEER REVIEW

As a peer reviewer you can either agree with the attainment level, disagree and suggest a different attainment level or query for more information.

The Criteria status will only change to 'marked as peer reviewed' when you select 'yes' or 'no' to the question 'Has the organisation met the attainment level selected?'. **If you select 'no' you need to input your suggested attainment level with a comment in the peer review comment box.**

Once the self assessing organisation has actioned a peer review query you will need to state 'yes' or 'no' to this question in order to complete the peer review for that criteria.

Below is a list of Indicators that have been peer reviewed and queried. Please review and action as appropriate.

You can access the Indicator by clicking on the Criteria link. This will open in a new tab.

Criteria 1.1.1 Attainment: PARTIALLY MEETING

The organisation has a documented overall commercial strategy, development plan, resource plan and, where applicable, a blueprint (these may be combined or separate documents, but should be integrated within an overall strategy)

Peer review comments: Further supporting evidence required to suggest an attainment

Continuous Improvement plan

Once you have Submitted the assessment you will be able to 'make a new CI plan'.

Click 'CI plan'. If you have completed a previous CI plan you can click the 'make a copy' link, this will populate the new CI plan with the information you populated in the previous one. You may want to do this if not much has changed. Once you have clicked 'make a copy' you will see a CI Plan in the 'Current Continuous Improvement Plans' list.

Alternatively you can click the 'make a new CI plan green button'. This will be a blank CI plan for you to populate.

Rebaselining

You will be asked to complete a rebaselining of your Assessment approximately 12 months after you completed your initial Self Assessment.

Rebaselining is an informal assessment. This means it will not be peer reviewed and it is not mandatory to supply supporting evidence.

Rebaselining is an opportunity for you to update any attainment scores you feel have been improved based on your continuous improvements efforts to see the impact it has on your organisations score.

You **do not** need to update the attainment scores for all of the criteria. The criteria attainment scores in the rebaselining are automatically set to the score you assigned it within the initial self assessment, therefore if no improvements have been made you do not need to do anything.

Steps to complete your rebaseline

1. Check any criteria that you have mentioned in your CI plan (if you have completed one), they are highlighted with the green tags “included in your CI plan”
2. Decide whether you need to update your attainment score based on any improvements made
3. Add any supporting evidence (commentary and documents) if you wish to do so. We recommend this as it will make it easier for you when you come to complete your next Self Assessment
4. Consider any other improvements you have made that may not have been mentioned in your CI plan and update the attainment level.
5. Once you have completed this you can submit your rebaseline to the Cabinet Office

When it is time to complete your rebaseline go to the ‘Assessments’ tab and click ‘create rebaseline’.

Creating a rebaseline will not override your assessment.

Once you have clicked 'create rebaseline' you will be taken to the rebaselining overview. On the left-hand side navigation you can access all the relevant information related to your Assessment.

Your Overall Assessment score is the overall score for your current Assessment. The Rebaseline score will start at the same score, once you update your attainment levels and save your progress this will increase.

To quickly action the criteria that have been mentioned in the CI plan (if you have completed one) you can click into the Themes and Practice Areas that state 'included in CI plan'

Your rebaselining is an informal assessment and is to reflect the improvements you have made since your last self assessment. This means it will not be peer reviewed and it is not mandatory to attach supporting evidence. There is the option to attach supporting evidence so that it is easier to complete your formal assessment next time round and we would recommend you doing so.

You only need to update the criteria you have made improvements to - you are not expected to update all the attainment levels, in the rebaselining, they are automatically set to the assessment score.
